

Christmas 2024

Message from the Management Team

Our new Christmas catalogue for 2024 showcases an expanded collection of our Christmas designs.

We present a selection from each of our ranges, many of which have been launched for this season.

We hope you enjoy and indeed, are able to benefit from, the effort from all concerned at Heritage Art and Design.

Much more to come, examples of designs will be posted on our website as they arrive.

All our cards are recyclable and this is clearly shown on the reverse of each card.

Please contact us for more information.

Meet our brands...

The bright n bold fun range with broad appeal. Eye catching colour combos, cheeky characters and unfussy words. Fruitloops brings a bit of bounce to Christmas.

'The Vicar of Scribbly' humour range combines a unique illustrative style covering a variety of situations with quirky punch lines.

Introducing Mr. Henry. A friendly bear who sets out every day to make someone somewhere smile, because making someone smile makes every day a good day!

Crazy cats, doggy dudes and quirky birds abound in this bright 'n' bold range of gently humorous yet lively designs.

Ella Bella Rose has a distinct, signature design style, based on repeating patterns. These designs, created as appealing surface patterns for a variety of products, lend themselves brilliantly to this new collection of Greeting Cards.

'Messages of Love' forms part of the Ella Bella Rose collection and has a distinct signature design style. These designs have been created in family and occasion captions, lending themselves brilliantly to this new collection of Greeting Cards.

Simple, quirky seasonal sentiments in a fresh and punchy illustrative style

Cheesily puntastic collage situations with a zoological appeal and just a touch of kitsch makes this colourful range of cards a great way to send your very 'beast' wishes.

Christmas Open

Card Specification: All cards shown on this page are printed on high quality board and provided with white envelopes and supplied in units of 6.
